SAFETY CERTIFICATES

▪ Safety ▪ Quality ▪ Solidity:

Furniture line Yo, Re style, kids have a safety certificate issued by the Polish unit TUV Rheinland Group. The right to use the MONITORING + TEST mark is not only a confirmation of compliance with the tested pattern - it is also a guarantee of maintaining repeatability and stability of our production process.

Kids Home furniture line has safety certificates issued by INT.

Certificates give customers confidence that purchased furniture meets all safety requirements.

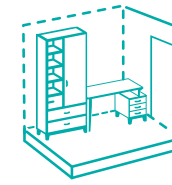

Ecology:

Out of concern for the well-being of our youngest customers and the natural environment - as the only manufacturer of children's furniture - we use ecological technology of painting with water-based lacquers. The paints used in the production process are safe and very durable.

Engravings:

Meblik has a unique technology of three-dimensional, precise engraving, and in combination with colored water-based paints and printing, we obtain unique 3D effects.
